WHY LEASE AN A330?

The A330 is an efficient and versatile aircraft, recognised and trusted by operators across the globe, and adaptable to airlines' individual commercial needs.

An asset that enables airlines to right-size their fleets, the A330 offers lower leasing costs and fuel prices. It can be slotted into medium demand routes, with the flexibility and range many differing market needs.

INTRODUCTION TO LCI

LCI is a full-service commercial aircraft and helicopter leasing company with offices in Dublin, London and Singapore. Since our inception in 2004, we have acquired aircraft with a value exceeding US\$8 billion, always applying our commercial insight and customer focused approach.

LCI provides customised leasing services and financial solutions to airlines, freight carriers and helicopter operators. The company is owned by the Libra Group.
